ABOUT PLU

"With rapid changing eco-system and employment landscape, it is becomingly increasingly crucial that students not only learn, but more importantly learn how to learn."

"Education in the 21st digital era is moving towards less programme content and teaching how to be creative and multidisciplinary, think critically, solve problems and innovate, adapt and absorb new materials and pedagogy in dynamic fields." .

Prime Light University, established by Prime Light Global Higher Education Institute LLC, Georgia, USA, chartered in USA and recognised by the Government of National Capital Territory of Delhi, India is a University with the best traditions in the production of self-reliant, ethics-conscious, globally competitive graduates imbued with requisite skills, competencies and ability to be key players in the global quest for attainment of sustainable development goals (SDGs).

The University is serving so many students worldwide via open and distance learning programmes through our team of highly qualified and experienced faculty worldwide. With a plethora of programmes at the Undergraduate and Graduate levels, including Certification programmes, the university offers a dynamic and flexible learning environment that inspires innovation and creativity and places emphasis on student access. Prime Light University prides itself on offering intimate, blended learning degrees essential for producing graduates that can add value to SDGs attainment. We offer Certificate, Associate, Bachelor, Master and Doctoral Programmes as well as honorary degrees.

PLU Light prepares and empowers undergraduates, graduates, and executives to create economic and social value in their organisations, their communities, and around the world. Entrepreneurial leaders convene on campus, sharing ideas and insights that allow our community to exponentially increase its impact. As you grow into an entrepreneurial leader at Prime Light University you'll challenge yourself, and the world, make lifelong friends, create a network of professional connections, and have a lot of fun. Dive into the reasons to embark on a life-changing journey at our prestigious institution for SDGs attainment. .

VISION, MISSION AND CORE VALUES

Our Vision

To be the master brand in the provision of affordable quality education for attainment of global goals

Our Mission

To advance knowledge and educate students in science, technology, entrepreneurship, management (STEM) and other areas of scholarship that will best serve the nation and the world in the 21st century.

The Institution is committed to generating, disseminating, and preserving knowledge, and to working with others to bring this knowledge to bear on the world's great challenges. Prime Light is dedicated to providing its students with an education that combines rigorous academic study and the excitement of discovery with the support and intellectual stimulation of a diverse campus community. We seek to develop in each member of the Prime Light community the ability and passion to work wisely, creatively, and effectively for the betterment of humankind.

WELCOME ADDRESS

Welcome to Prime Light University - (PLU). We invite you to visit us at any time - in person or through this site - to explore the life of getting effective education for sustainable development goals (SDGs) attainment.

---education is the most important tool to reshape worldviews and values and has enormous potential to address the sustainability challenges facing humanity (Vasiliki and Nikolaos, 2019).

Education under multiple global initiatives has been playing significant role in overall sustainable development in the era of knowledge economy and knowledge society. Education for sustainable development (ESD) can enable the achievement of the 17 SDGs by raising the awareness of the 17 goals in education settings; promoting critical and contextualised understanding of the SDGs; and mobilising action towards the achievement of the SDGs. Education under SDG-4 plays great role in achieving each of the sustainable development goals. Investing on education is investing to achieve all the SDGs for people to transform for themselves, their families, their communities, their nations and the world at large.

Arguably, education is the most important tool to reshape worldviews and values and has enormous potential to address the sustainability challenges facing humanity (Vasiliki and Nikolaos, 2019). The Sustainable Development Goals (SDGs) agenda of the United Nations adopted by world leaders in 2015 acknowledges Quality Education (SDG#4) as a means for achieving the remaining SDGs, with sustainability as a goal for education in target 4.7 (Steffen, 2015). Higher institutions must therefore confront new realities rapidly manifesting themselves in a diversely complex and fast-changing world. Business as usual will not suffice. They need to be expansively re-focused in order to become more sensitive and responsive to its mission of developing graduates who, in addition to conventional graduate training, are also able to help their countries achieve the Agenda 2030 and its 17 SDGs.

MEET OUR VICE CHANCELLOR

Prof. Alain A. Ndedi is PLU Vice Chancellor and Professor of Entrepreneurship, Strategy and Organisation and Distinguished Professor of Entrepreneurship and Sustainable Development.

With an illustrious career spanning over 17 years, Prof. Ndedi is globally recognized for his contributions to academia, management/entrepreneurship/corporate consulting, and public speaking. His relentless pursuit of knowledge has earned him numerous honors, including multiple awards, as well as various academic and research scholarships.

Prof. Ndedi's leadership philosophy emphasizes an inclusive, innovative, and dynamic learning environment. He integrates rigorous academic research with practical applications, preparing students and professionals to excel in a competitive landscape. As Vice Chancellor, Prof. Ndedi aims to enhance the university's academic programmes, promote cutting-edge research, and build robust industry partnerships, propelling Prime Light University to new heights of global recognition.

In the realm of education, Prof. Ndedi's impact is profound. Professor Ndedi book was featured among the 28 Best Intrapreneurship Books of All Time (https://bookauthority.org/books/best-intrapreneurship-books). Former World Bank and USAID consultant, chairman of lance d'afrique, Executive Director of Cameroon Human Resources SARL and author of more than 30 books, Alain Ndedi who holds a PhD in business management and another one in forensic accounting, is a professor with an extensive experience in entrepreneurship, finance, and economic development for the past 18 years.

He has supervised more than 40 PhD students and approximately 50 Masters students. He was Dean at Saint Monica University, within the School of Business and Public Policy; lecturer of entrepreneurship and project management at the university of Johannesburg, Université de l'entrepreneuriat and at the Higher Institute of Management and Entrepreneurship (IME). He is a visiting professor at Hope Africa University and International Leadership University where he teaches Business Ethics and Corporate Social Responsibility, Strategic Management, and Organisational Behaviour. .

Professor Ndedi has consulted for the UNDP, African Union, NEPAD, and many African governments on issues related to public finance, budget management, monitoring and evaluation. Associated as professor with Charisma University since 2014, Professor Ndedi held position at the University of Johannesburg, Researcher at Wits University, Lecturer at Boston College, external examiner at the University of Cape Peninsula, State University of New York (SUNY), and the University of Johannesburg.

He worked as Political Analyst at SABC, South African Broadcasting Corporation, a state-owned public broadcaster in South Africa. From 2004-2008, he was Director at YENEPAD, a platform of African scholars based in South Africa working on African renaissance programmes. Professor Ndedi wrote Case studies on Volkwagen unethical behaviour, the war between Komatsu and Caterpillar, the WhatsApp founders Bryan Ancton and Jan Koum, the Maponya Mall in Soweto, the battle between Coca Cola and Pepsi, the google founders Larry Page and Sergey Brin, the Douala Stock Exchange, Yahoo downfall, and the Shell corporate irresponsibility behaviour in Nigeria.

He is a Fellow/ Council Member, Institute of Classic Entrepreneurship (ICEnt); African Council for Small Business and Entrepreneurship (ACSBEnt) and The Global Academy of Entrepreneurship and Innovation (GAEIN).

| **Affordable Quality Education** | We offer a top-notch education without the | hefty price tag. Our |

programmes are designed to provide high-quality learning experiences that are budget-friendly, ensuring that you get excellent value for your investment.

100% Online
Study from anywhere in the world with our fully online courses. You won't need to commute or relocate; you can access all your course materials, participate in discussions, and complete assignments from the comfort of your own home.

Convenience

Our flexible scheduling allows you to balance your studies with other commitments. Whether you're working full-time, managing family responsibilities, or pursuing other interests, you can tailor your coursework around your personal schedule.

Mentorship

Benefit from personalized guidance and support from experienced mentors in your field. Our mentorship programmes connect you with industry professionals who provide valuable insights, advice, and feedback to help you succeed academically and professionally.

WHY STUDY AT PLU

A dynamic global learning community: Modules are designed to ensure students appreciate the diverse, interdisciplinary nature of of their field of studies. Students will connect with peers around the globe and engage in learning activities with each other to bring their own unique perspectives to the programme.

Learn from internationally renowned experts: You'll be taught by leading academics at Prime Light University and world-class professionals various partner institutes/academies. The institution's academics have extensive industry experience from around the world, reflecting the global nature of higher education, which feeds directly into their teaching.

Enhance your professional profile with a valuable career credential: As a graduate of this institution, you'll be prepared for a successful career in any field of your choice, depending on your talent, interest and ability (TAI), and you'll have the skills to succeed in organisations ranging from large corporations to small businesses and nonprofits. Graduates from Prime Light University have gone on to work at leading global companies.

Global Accreditations and Recognitions: BQS, AAHEA, 3CE, ACEEE, IATU, ACDE, ACHEC and UNGM accredited and recognised programme. PLU qualifications are EduQual-regulated, globally recognized qualifications that cater to both professional and academic advancements.

Relevant Curriculum: Our courses and programmes are constantly being updated with enhanced curriculum relevant to the changing world, and to your own goals. Our syllabus is in line with the ever changing business world

Relevant Applied Degrees: Our professional diplomas and postgraduate programmes are applied, by completing a capstone project in your particular area of interest and expertise.

Flexible Learning: Our Faculty can offer individualized instruction designed to provide each student with the guidance and support necessary for successful programme completion.Your residency is not a problem to us

Affordable Education: Prime Light University is the best - when comparing quality and cost. Our tuition fees are affordable; we have standard textbooks written by renowned scholars at affordable cost to complement their learning and study.

Open Enrolment: Begin study at any time and when it best fits your schedule; our distance learning programme allows you to take your study with you. With Open Enrolment System, there are no predetermined semester dates to contend with.

Qualified Faculty and Mentors: Prime Light University has pool of qualified, experienced and dedicated instructors and mentors that offer professional and academic support to students. Our Faculty drives the college's innovative capacity as experts in their fields..

Quality Academic Service: From your initial contact, our Faculty and Administrators are available to support your educational goal based on the core principle that "through your success we succeed".

Continuous Tutoring Services: Prime Light University is committed to providing students with adequate learning resources and support needed to successfully complete their study. As part of this commitment, students can access private-tutoring in their study. By the end of the programme, students will have had the following experiences and opportunities:

Create a product –

- Build a business plan: Students will produce a business plan outlining their original idea and present this idea to a panel of small business community members.

- Participate in real world projects and industry challenges: Just as is done in the real world, students will often work in teams to design and develop novel solutions to class projects and industry challenges that are mentored by the programme's business partners.

- Build strong ties with local industry partners: The programme's business partners host students for learning opportunities alongside experts and guest lecture in our classes; which result in relationships and future employment opportunities.

Highlights

- Project based work: Every subject is taught through project-based learning that engages students in every facet of their education.

- Collaboration and innovation: Just as is done in the real world, students often work in teams to design and develop novel solutions to class projects and industry challenges.

- Student-centred learning: Students take an active role in their own education, working with teachers in a professional, collaborative environment built on two-way communication.

- The programme will turn your ideas into reality

- Focus on Skills that Matter

- World-class faculty

- Internships with Top Employers/Firms

- Specialisation in desired area

- A Transformative Student Experience with Startup and Entrepreneurship loan

- World-class certification and professional membership with full benefits of partner institutes and universities
- The effective use of blended learning approach
